Information letter for your physician

DEPARTEMENT
SERVICES MEDICAUX

CHIEF MEDICAL OFFICER

Objet : Care abroad

Dear colleague,

Your patient is contemplating to perform care abroad. Some of these treatments may require prior authorization from the Caisse nationale militaire de sécurité sociale (CNMSS) Medical Service.

In order to allow me to study his (her) request as best we can, I should be grateful if you could draw up a medical certificate specifying:

- The country
- The name and contact details of the establishment where the care will be carried out
- The expected date of start and end of the request for care
- The diagnosis
- The nature of care
- The motivation of carrying out care outside France

With my thanks, I send you my brotherly greetings.

Chief medical officer
